

Scrum Master: Kihambo

We discussed how we can better communicate and manage meeting days/ times with the schedules we have. Four of us showed up to this scrum meeting. Also, we exchanged new ideas since we're no longer confident in "Kara-Go-ke."

What we worked on

- Aiden: getting everyone into the meeting, putting together and new project proposal, and implementing scrum
- Kihambo: forming an idea for a new product, TixOnTix
- Jacob: the BRD formatting and research for product proposal
- Diego: improving proposal for air resource document
- Nathan: looking for new ideas for product proposal
- Noah: delegating proposal idea

What everyone's going to work on

- Aiden: getting new ideas for Team Time proposal
- Kihambo: finding features for movie ticket finder product
- Jacob: continue BRD formatting and researching ideas
- Diego: finding features for air research document
- Nathan: researching new ideas for product proposal
- Noah: BRD

Who's blocked:

- No one.

Expected outcomes:

- By Monday, we'll have the proposal finished with two features from each member.

Everyone has to put in 1-2 Table of Contents subjects in the doc form.
