11/2

- looked at requirements for Project Plan
- going to add more of my designated revisions to the BRD
- not blocked

Diego

11/02/2023 10:16 PM

Diego 11/2 tweaked one of the features in the BRD I was assigned to as well as 2 of the phase 2 i might split one of the gig review features into two as while they were closely related, they were technically different functionalities and Vong mentioned if your functionality used "or" or "either" you should probably split them not blocked?

Aiden

11/02/2023 10:22 PM

Aiden 11/02 Started the revision process for user management, refactored it to user administration and then created another user management portion for the admin user. Began editing and adding user stories. Will continue this process until BRD is completely revised and ready for low level design production. Going to on a camping trip so kind of blocked, but will be using my hotspot.
