

SCRUM 10/9:

Kihambo:

- working on user stories for each functionality on BRD
- going to work on database assignment
- not blocked

Kameron:

- I worked on the homework assignment and worked on the Basic Track Editor user stories and the Collab Feature user stories
- I will continue to work and fix on the user stories and complete the homework assignment
- I am not blocked

Aiden :

- I worked on defining the user stories for user management and audio visualization.
- I am going to flesh out and elaborate upon our current user story sentences once approved by vong today.
- not blocked just a little anxious.

Nathan:

- I worked on developing our user stories for the BRD
- I will work on fixing the user stories after feedback from vong
- not blocked

Diego:

- Worked on user stories for bingo board
- Going to work on the database assignment
- Not blocked

Jacob :

- Worked on expanding user stories for artist portfolio, scale display
- Still need to go through Vong's advice and revise my failures sections for each functionality to get clear, quantifiable info
- not blocked
